SAN DIEGO, CA 92132-5190

N00247.000054
NTC SAN DIEGO
SSIC #5090.3

5090
Ser 1851.JM/3032
7 Oct 93

From: Commanding Officer, Southwest Division, Naval Facilities Engineering
Command
To: Commander, Naval Training Center, San Diego (010.2)
Subj: 19F5 FIRE FIGHTING TRAINER SOURCE EMISSION TESTING

1. It has been determined by the San Diego Air Pollution Control District (APCD) that further source testing (polycyclic aromatic hydrocarbons, particulate, phosphates, BTXE, benzaldehyde group and miscellaneous volatile hydrocarbons) is required at the subject trainer. This testing will be performed and analyzed by BTC Environmental Incorporated. The results must be deemed satisfactory by the District before a facility operating permit can be obtained. Testing is scheduled for 12-15 October 1993 and will be observed by personnel from Southwest Division, Fleet Training Center and the San Diego APCD.

2. If you have any questions or comments, please contact Mr. Julius Miller, Code 1851.JM, who can be reached at 532-1143.
